INVITATION LETTER

Eurasian Academy of Mining Sciences (EAMS) - is an association of leading scientists and specialists in the fields of mining, geology, petroleum, and non-metallic minerals development. Since creation, EAMS has developed international collaboration between Academies of Mining Sciences and Mining Community of the Eurasian continent. At a general meeting in 2019, the EAMS decided to work towards transforming the Eurasian Academy of Mining Sciences into a Worldwide Academy of Mining Sciences, involving scientists and academicians from the Mining communities of Australia, Africa and America. The concept of this work – «Planet Earth is one mining-geological system».

We invite you to take part in our «Mongolian Mining Congress». This event will take place on 21-23 September 2022 year in Ulan-Bator, Mongolia. During the «Mongolian Mining Congress» the EAMS general meeting will be held, where one of the topics for discussion will be the transformation of the EAMS into the Worldwide Academy of Mining Sciences.

We look forward to your presence on the «Mongolian Mining Congress»!

If you have any questions regarding this letter, please contact:
